AUSTIN HUMPHREY

PRODUCT STRATEGY · AI / LARGE LANGUAGE MODEL WORKFLOWS · SPORTS INTELLIGENCE

Multi-disciplinary professional bridging advertising strategy, financial advisory, and AI-assisted product development. Currently architecting Blaze Sports Intel — a production-grade sports analytics platform spanning MLB, NFL, NBA, NCAA football, and NCAA baseball, built solo on Cloudflare's serverless edge with sub-30-second live refresh. Two years of hands-on Large Language Model workflow design (Anthropic Claude, Google Gemini, OpenAI GPT) applied to data ingestion, predictive forecasting, and editorial automation. Quantitative communicator who translates ambiguous datasets into decisions stakeholders can act on.

EXPERIENCE

Founder & Builder — Blaze Sports Intel

Boerne, TX — 2023 – Present

- **Architected** end-to-end sports intelligence platform serving MLB, NFL, NBA, NCAA football, and NCAA baseball — deployed entirely on Cloudflare's serverless edge across 53 Workers, 12 D1 databases, 45 KV namespaces, and 18 R2 object stores.
- **Built** real-time data ingestion pipelines and mobile-responsive dashboards delivering sub-30-second live refresh across thousands of concurrent game states.
- **Designed** AI-assisted forecasting modules leveraging Anthropic Claude, Google Gemini, and OpenAI GPT for predictive analytics, narrative generation, and editorial automation.
- **Drove** product strategy, technical architecture, release operations, content development, and stakeholder communication as solo operator across the full product lifecycle.

Advertising Account Executive — Spectrum Reach

Austin, TX — Nov 2022 – Dec 2025

- **Developed** data-informed advertising strategies across linear TV, OTT/CTV, streaming, and digital channels for local and regional advertisers.
- **Translated** multi-channel campaign performance metrics into actionable insights that drove client retention and strategic account expansion.
- **Managed** the full sales cycle from prospecting to close — proposal development, performance reporting, and consultative renewal conversations.
- **Collaborated** cross-functionally with creative, ad operations, and analytics teams to align campaign execution with measurable business outcomes.

Financial Representative — Northwestern Mutual

San Antonio, TX — Dec 2020 – Aug 2022

- **Completed** a nationally top-5 ranked internship program and earned full-time conversion to financial representative role; awarded the "Power of 10" recognition for top 10% national performance.
- **Built** comprehensive financial plans for individual and family clients through structured needs analysis and quantitative modeling of long-term capital projections.
- **Maintained** disciplined prospecting cadence and consultative pipeline management to drive sustainable client acquisition.

SELECTED ACHIEVEMENTS

PRODUCTION ARCHITECTURE

Built 53-Worker Cloudflare serverless platform serving multi-sport analytics across MLB, NFL, NBA, NCAA football, and NCAA baseball — zero-to-production as solo founder.

AI / LLM OPERATIONS

Two years architecting production-grade Large Language Model workflows (Claude, Gemini, GPT) for data ingestion, predictive forecasting, and editorial automation — deployed systems, not prototypes.

QUANTITATIVE STORYTELLING

Translated performance metrics into long-form editorial coverage for under-served markets including college baseball, FCS football, and regional NCAA athletics.

END-TO-END OWNERSHIP

Led architecture, engineering, content strategy, operations, and stakeholder communication across the full product lifecycle as solo operator.

CORE COMPETENCIES

Cross-Functional Leadership · Stakeholder Management · Product Strategy · Consultative Sales · Account Management · Financial Planning & Analysis · Generative AI · Large Language Model Workflows · Prompt Engineering · Agentic AI Systems · Cloud Architecture · Serverless Edge Computing · Real-Time Data Pipelines · Quantitative Analysis · Data-Driven Decision Making · Sports Analytics · Editorial Strategy · Multi-Platform Campaigns

TECHNICAL STACK

- **AI / Machine Learning** — Anthropic Claude (Sonnet, Opus, Haiku), Google Gemini, OpenAI GPT, agentic workflow design, prompt engineering, Claude Code SDK, Model Context Protocol (2 years hands-on production deployment)
- **Cloud Infrastructure** — Cloudflare Workers, D1 (SQL at the edge), KV namespaces, R2 object storage, Cloudflare Pages, Durable Objects, Wrangler CLI
- **Languages & Frameworks** — TypeScript, Node.js, React 18 / 19, Next.js 16, Hono, Tailwind CSS, SQL, HTML5, CSS3
- **Data Engineering** — REST API design, WebSocket streaming, real-time ingestion pipelines, ETL workflows, schema design, third-party data integration
- **DevOps & Tooling** — Git, GitHub, CI/CD pipelines, Vitest, Playwright, Cloudflare Observability, performance monitoring
- **Sales & CRM** — Multi-channel campaign planning across linear TV, OTT/CTV, streaming, and digital; quantitative campaign performance analysis; consultative pipeline management

EDUCATION

AI & Machine Learning — Postgraduate Certificate
UT Austin McCombs School of Business · In Progress

M.S. Entertainment Business — Sports Management
Full Sail University · Feb 2026 · GPA 3.56

B.A. International Relations & Global Studies
University of Texas at Austin · 2014 – 2020
Minors: Economics, European Studies

LEADERSHIP & RECOGNITION

Rush Captain & Alumni Relations Chair — Alpha Tau Omega, UT Austin
Managed ~$100,000 event budget across two academic years. Recruited 73 new members across two pledge classes through structured outreach and relationship development.

"Power of 10" Award — Northwestern Mutual
Recognized in top 10% nationally among intern class for performance, prospecting cadence, and client outcomes.
